- l. Director of Electric Power Station: Engineer Sviridov who is a member of the Communist Party. [redacted]
4. The German administrative office is located in Nachterstedt, approximately twelve kilometers from Aschersleben. This is the site of the coal mines and adjoining power plants which are part of SAG Karier. The man in charge of the mines is Director-General Lüder; the chief engineer is named Döring, while the business manager is named Bracklog.
5. The SAG Karier employs approximately 4,000 Germans, most of whom are either politically apathetic or openly anti-Russian. Of the many interpreters, for instance, only one is a member of the SED. He is the only man permitted to act as interpreter for discussions between Soviet staff members and the Political Director. 25X1
6. The Political Director is a man named Fest who was recently sent to Nachterstedt from Weissensee. [redacted]
7. In order to get a commendation and to be entitled to premiums for good work, the Soviet officers of Karier made changes in the books to show a profit of one million marks instead of actual losses.
8. Since the supply of brown coal at the present site has almost been exhausted, it is planned to start operations at a different location and to move all machinery and buildings. It is expected that the transfer will be completed by 1952 and that it will involve an expense of three million marks a year.
